

# APPOINTMENT STANDARDIZATION

## COMMANDER'S GUIDE TO ACCESS SUCCESS

### CHANGE SHEET 7

The following is a summary of changes to the Commander's Guide to Access Success, formerly dated June 4, 2003. The only update are new scenarios in Appendix J for Open Access. **All changes are effective as of August 15, 2003. Changes were not italicized in the body of the Guide since entire sub-sections were added. Also since an entire section of the Appendix is being added, it will simply be referenced here rather than reproduced. To see the entire change, please consult Appendix J.**

Users should keep the old copy of the Guide for reference. Users should either download a new copy of the Commander's Guide or make the appropriate changes to their present copy as indicated below:

**Page J-15, Appendix J, VII. Examples of Open Access Implementation in the Military Health System,** remove existing two examples and replace with two updated Open Access Status Reports:

**From:**

**Open Access at Hill Air Force Base, Utah (clinic, not a bedded facility)**

**To:**

**Open Access at Hill Air Force Base, Utah (a clinic, not a bedded facility)  
(as of Aug 8, 2003)**

**From:**

**Advanced Access at Ramstein Air Base, Germany (clinic, not a bedded facility)**

**To:**

**Red Dragon Open Access at 56 MDG: Luke AFB, AZ (*bedded facility*)  
(as of 4 Feb 2003)**
